Profile

An IT undergraduate with good knowledge in programming languages such as Java, C, and Python. I possess essential skills in Object-Oriented Programming (OOP), Machine Learning and Data Structures and Algorithms. My enthusiasm for technology drives me to apply my knowledge to real-world challenges and projects.

Education

Qualification	Institution	Year	Percentage / CGPA
SSC	M.S.M. English School, Malkapur	2020	88.2%
HSC	Yashodham Public School and Jr. College, Malkapur	2022	87.8%
BE Information Technology	Shri Sant Gajanan Maharaj College of Engineering, Shegaon	2022 - 2026	8.43 CGPA

Internship

Research Intern | ApexaiQ

Mar 2025

Researched ApexaiQ's cybersecurity domain and gained hands-on experience in Python, Selenium-based web scraping, Linux based commands and core DevOps tools like Docker and Kubernetes.

Skills

Programming Languages : Java , Python , C , Html , CSS
Object Oriented Programming , SQL and Database , Git , Github.

Certification

- Programming in Java – Nptel
- OCI Generative AI - Oracle
- AWS Academy Graduate - AWS Academy Machine Learning Foundations
- OCI AI Foundation Associate - Oracle

Projects

Smart India Hackathon 2023 (Hardware Edition Final)

Built a multipurpose health-monitoring device to measure parameters like blood pressure and oxygen level using Arduino UNO and sensors. Gained experience in handling real-world data collection and analysis from IoT sensors.

Crop Recommendation System using Machine Learning

Developed and trained multiple ML models (Random Forest, XGBoost, SVM, etc.) for crop prediction, achieving 99.32% accuracy using soil and climatic data. Built a Flask-based API to integrate the trained model with a React frontend for real-time recommendations.

AQI Classification using Random Forest

Developed a machine learning model using Python and scikit-learn to predict air quality categories with 81% accuracy based on pollutant data from Indian cities.
